Employee Share Ownership Plan 2023

Sign up to the new
Employee Share
Ownership Plan
from September 15 to
October 4, 2023

This Brochure is for informational purposes only and should not be relied on in making an investment under ESOP. You should consult the description of the terms of the offering in the U.S. Supplement and the information in Capgemini's annual and quarterly reports before making a decision to participate in the program. If there are inconsistencies between the U.S. Supplement and this Brochure, the U.S. Supplement will control.

Nothing in this Brochure (or any other communications regarding ESOP) should be construed as tax, investment or legal advice. You should seek advice from your own tax, legal and financial advisers before deciding whether to participate in ESOP.

The securities offered under ESOP as described herein have not been, and will not be, registered with the United States Securities and Exchange Commission under the U.S. Securities Act of 1933, as amended (the "Securities Act"), and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons except in compliance with, or pursuant to an exemption from the registration requirements of the Securities Act.

To find out about ESOP 2023, go on 

<https://esop.capgemini.com/2023>

ESOP 2023 A BRIEF SUMMARY...

- A large scope: 97% of Group employees eligible, across 32 countries.
- Accessible to a large audience: a minimum personal contribution equivalent to 2 Capgemini Shares.
- An offer in line with previous plans.
- A leverage mechanism, which protects your initial US dollar personal contribution at the end of the Plan and offers attractive yield potential if the Capgemini share price¹ rises over the duration of the Plan.

On the other hand:

- Your participation in the average increase (if any) in the Capgemini share price is partial and decreases, as a percentage, as the “protected average increase” in the price of the Capgemini share grows.
- In exchange for the advantages available to you under ESOP 2023, the amount you receive at the end of the Plan will be calculated without taking into account the 12.5% discount on the reference price at which you will subscribe for shares.
- You will not keep dividends or any other financial rights that may be paid on these shares during the plan term.
- Your investment must be held for a period of five years (except in case of an authorized early release).

Invest in the future of our Group!

You subscribe to purchase Capgemini shares² with a personal cash contribution and a leverage component provided through bank financing and, at the expiration of the required lock-up period under the Plan³ (i.e. December 19, 2028 :

- You get back the amount of your personal contribution in U.S. dollars⁴, and
- You will also receive a portion of any “average protected increase” in the Capgemini share price over the duration of your investment during the lock-up period.

¹ Capgemini SE, the parent company of the Capgemini group, is listed on “Euronext Paris”. Capgemini SE (ISIN code: FR0000125338) is notably part of indexes Euronext CAC 40 et Euronext 100, and european indexes Euro Stoxx, Stoxx Europe 600, et Stoxx Europe 600 Technology. The Group performance as a responsible company is also recognized by its inclusion in different indexes based on ESG criteria (Environment, Social, Governance) such as CAC 40 ESG, Dow Jones Sustainability Index (DJSI) Europe, Bloomberg Gender Equality Index (GEI) et CAC SBT 1.5 indexes.

² Capgemini shares are denominated in Euro, the nominal value of each share being €8. Thus, the amount of your personal contribution in this plan will be converted into Euro using the applicable Euro/U.S. dollar exchange rate on November 2, 2023.

³ Or sooner in the event of an Early Exit Event as defined below.

⁴ Except in the exceptional case in which the contract through which the leverage is provided would be cancelled (as more fully described in the promissory note) by the Bank or the insolvency or default of the Bank. Your personal contribution will not be protected if either of these cases were to occur, as described in more detail in the Risk Factors section of the U.S. Supplement.

WHAT IS THE POTENTIAL GAIN?

Under the leverage mechanism, a loan⁵ is made to you by Credit Agricole Corporate and Investment Bank (the “Bank”) which enables you to subscribe for a number of shares with a value equal to **10 times** your personal contribution.

AT THE END OF YOUR PARTICIPATION IN THE PLAN:

- The Bank will return to you your personal contribution in U.S. dollars: it is guaranteed⁶ by the Bank and you are not exposed to any risk of loss on your personal contribution from a decline in the value of the Capgemini shares or changes in the Euro/U.S. dollar exchange rate.
- You benefit from a portion of any gain above the reference price (as defined below) on all the Capgemini shares purchased on your behalf. Your gain, if any, is calculated on the basis of the “protected average increase” (as defined below) in the Capgemini share price over the duration of the Plan, if any, and not the final share price at the end of the investment.
- The greater the protected average increase, the higher the gain.
- The payout may equal several times your personal contribution.

Amount received as a multiple of the personal contribution according to the average protected rise in the share price.

Please refer to the “SAR Information Notice” for more information on the SAR mechanism.

To understand how this curve works, see the Examples section of this brochure.

While exchange rate fluctuations will not affect the guarantee of your personal contribution, note that the potential gain will be denominated in Euro. This means that the value of the gain when expressed in U.S. dollars will vary with changes in the exchange rate between the Euro and the U.S. dollar. If the value of the Euro compared to the U.S. dollar increases, the value of the gain in U.S. dollars will increase, whereas if the value of the Euro compared to the U.S. dollar decreases, the value of the gain in U.S. dollars will decrease.

Value of your investment (as a multiple of your personal investment) in €

Payout, in multiples of your personal contribution

⁵ In This loan is extended automatically; you personally do not have to do anything to receive it; your Agent, as defined in the Reservation/Subscription form, will take all necessary actions on your behalf and it will be repaid solely out of the shares you subscribe for (both the shares purchased with your personal contribution and the shares purchased with the Bank loan proceeds).

⁶ Except in the exceptional case in which the contract through which the leverage is provided would be cancelled (as more fully described in the promissory note) by the Bank or in case of insolvency or default of the Bank. Your personal contribution will not be protected if any of these cases were to occur, as described in more detail in the Risk Factors section in the U.S. Supplement.

EXAMPLES

In these examples, an indicative “reference price” of €150 is used, which results in a subscription price by employees of €131.25 (87.5% x €150) with a 12.5% discount. Note that the performance is calculated by relinquishing the discount.

And an indicative exchange rate between the Euro and the U.S. dollar of 1 Euro = \$1.10 is used to calculate the number of shares subscribed. The examples below do not take into account any change in the exchange rate between the Euro and the U.S. dollar between inception and maturity of the Plan.

If the protected average increase in the Capgemini share price over the 2023-2028 period has been...	0%	10.00%	20.00%
<i>Which means an average of readings of...</i>	€150.00	€165.00	€180.00
...by investing \$288.75 (2 shares) in 2023, in 2028 you will receive ⁷	\$288.75	\$570.75	\$805.75
You will therefore multiply your personal contribution by...	1.00	1.98	2.79
Which is equivalent to an average annual return of...	0%	14.6%	22.8%

Once the protected average increase has been determined, it is then multiplied by a “multiplier” used to calculate your gain per share. The multiplier allows you to benefit on a leveraged basis from the protected average increase with respect to the shares purchased with your personal contribution, but the multiplier also decreases as the protected average increase rises. Your investment return therefore is not proportionate to the protected average increase in the Capgemini share price: Participation in the average increase decreases as the protected average increase in the price of the Capgemini share grows.

In exchange for the Bank’s guarantee of your personal contribution and the ability to benefit from the protected average increase in the Capgemini share price, you relinquish the 12.5% discount on the reference price, a portion of the increase, if any, in the price of the shares subscribed, as well as the dividends and other financial rights that may be paid on these shares during the required lock-up period under the Plan. You also may not sell the shares until the end of the Plan

⁷ Before tax and social security contributions, if applicable (without taking into account changes in the exchange rate between the Euro and your currency); the amount you will receive is the countervalue in your local currency of the euro amount, using the exchange rate at the time of exit; please see the Local Supplement.

WHAT IS THE PROTECTED AVERAGE INCREASE?

The calculation of the protected average increase is based on the reference price, which will be set on November 10, 2023. The reference price will be the average of the volume-weighted average prices for one Capgemini share on the Euronext stock exchange on the 20 trading days preceding November 10, 2023.

The subscription price: the price at which you buy Capgemini shares, or 87.5% of the reference price. The discount is the difference between the reference price and the subscription price, and is not taken into account in the calculation of the return on investment that you will receive at the end of the Plan.

FOR FIVE YEARS,

From the date of the share delivery (i.e., first reading) to November 15, 2028, the closing Capgemini share price will be recorded on the 15th day of each month⁸ (i.e. 60 monthly readings in total):

- If, when the share price is recorded, the closing share price is lower than or equal to the reference price, the reference price will be recorded instead. This means that the average of the 60 readings will reflect only values greater than or equal to the reference price.
- If the closing share price is above the reference price, the share price will be recorded.

AT THE END OF THE FIVE-YEAR PERIOD...

- The **average** of the 60 readings reflects only values greater than or equal to the reference price.
- The **protected average increase** is the difference between the average of the readings and the reference price.
- If none of the closing share prices recorded on any of the readings exceeds the reference price, you will have no gain but you will recover the amount of your personal contribution in U.S. dollars⁹. However, it takes only one reading higher than the reference price to result in a gain.

EXAMPLE OF CHANGE IN THE CAPGEMINI SHARE PRICE OVER 5 YEARS

At the end of the five years lock-up period, the share price may be above or below the average of the readings.

⁸ If the fifteenth of the month is not a trading day, the share price will be recorded on the previous trading day. By way of an exception, the first share price will be recorded on the day on which the shares are delivered.

⁹ Except in the exceptional case in which the contract through which the leverage is provided would be canceled (as more fully described in the promissory note) by the Bank or the insolvency or default of the Bank. Your personal contribution will not be protected if either of these cases were to occur, as described in more detail in the Risk Factors section in the U.S. Supplement.

USEFUL INFORMATION

With ESOP 2023, up to 3.2 million ordinary shares can be subscribed by Group employees.

You invest your personal contribution and the Bank will lend to you an amount equal to nine times your personal contribution. This allows you to subscribe for a number of Capgemini shares at the subscription price for an amount equal to ten times your personal contribution. The Bank providing the loan will use the proceeds from the sale of your shares at the end of the Plan to repay the loan and any outstanding interest on the loan on your behalf. However, the loan is non-recourse, which means that you will never be personally liable to repay any amounts due under the loan that are not covered by the proceeds of the sale of your shares.

The subscription price¹⁰ and the reference price will be announced on November 10, 2023 expressed in Euro and in U.S. dollars (based on applicable Euro / US dollar exchange rate on November 9, 2023).

■ The Capgemini shares that you subscribe for will be held in an account at a custodian, Computershare Trust Company, N.A., subject to a security interest, pursuant to a pledge to the Bank providing the loan. By participating in the Plan, you will appoint the custodian as your proxy to vote the shares at shareholders meetings in accordance with the recommendations of Capgemini's board of directors, unless you instruct otherwise. The appointment you provide will be valid through 2024, and will be automatically renewed for successive one-year period for up to five years, unless and until you revoke such appointment or remove your shares from the Plan. You can revoke this appointment by notifying your Human Resources department within one week following the date of the notice of shareholder meeting.

¹⁰ This price is equal to 87.5% of the reference price.

- Your investment must be held for a period of five years (except in the case of an Early Exit Event as defined below), which means that during this period you will not be able to withdraw, sell or otherwise transfer the shares you have subscribed to. At the end of this lock-up period, your investment is sold and, after settlement of the loan, you receive the greater of the remaining cash proceeds and an amount equal to your personal contribution, unless you elect to receive shares in accordance with the terms described in the U.S. Supplement.
- As described in more detail in the U.S. Supplement, the shares that you have subscribed to will be pledged as collateral to the Bank for the loan to you. As part of its rehypothecation rights, the Bank may repledge, borrow, sell or otherwise transfer the shares, in whole or in part, for its hedging arrangement, subject to certain conditions. In case of a shortage of liquidity of the loan-borrowing market for the shares, (as described in the Fund's rules), it may not be possible to exercise the voting rights of all the shares subscribed.
- A maximum of 3.5 million shares may be created through the share issuance reserved for Capgemini group employees under the Plan.

Should demand exceed supply, the following reduction rule will apply, based on the average subscription, defined as the ratio between the maximum number of shares issued and the number of subscribers in the Plan. You may be in one of the following cases:

Case 1: Your subscription (including the shares financed by the bank) is lower than or equal to the average subscription: you will receive all the whole shares you have subscribed.

Case 2: Your subscription (including the shares financed by the bank) is greater than the average subscription: you will receive the shares you have subscribed up to the average subscription; any subscription in excess of this amount will be reduced with a proportional allocation of shares requested within the limit of the number of shares available, rounded down to the nearest whole share.

All subscriptions below or equal to the average will be satisfied in full.

The U.S. Supplement and the Capgemini International Group Savings Plan rules are available on Talent: <http://talent.capgemini.com/ESOP> and on the ESOP 2023 dedicated website <https://esop.capgemini.com/2023>.

DATES TO REMEMBER...

SEPTEMBER 15 – OCTOBER 4, 2023

You can place a reservation order.

NOVEMBER 13-15, 2023

You can cancel your reservation or, if you have not subscribed before, subscribe (but for a reduced amount*).

JANUARY 2024

The first payroll deductions are implemented. You receive confirmation about the subscription. You receive the first account statement.

2023 ————— 2028

NOVEMBER 10, 2023

Announcement of the reference price and subscription price.

DECEMBER 19, 2023

Share delivery.

DECEMBER 19, 2028

End of holding period.

**A maximum of 0.25% of your 2023 gross annual compensation.*

IN PRACTICE...

AM I ELIGIBLE FOR ESOP 2023?

To be eligible for ESOP 2023, you must meet the following three criteria:

- 1 - Currently be an employee of a Capgemini group¹¹ company.
- 2 - Be employed by that company for **at least one day** between November 13 and 15, 2023 (inclusive).
- 3 - On November 15, 2023, have been employed by Capgemini for **at least three months** (whether consecutive or otherwise) since January 1, 2022.

Furthermore, as a result of sanctions currently imposed by the European Union, citizens or residents of Russia who do not have a legal residence or citizenship of a country of the European Union, the European Economic Area or Switzerland or Belarus who do not have legal residence or citizenship in the European Union cannot participate in this offering.

HOW MUCH CAN I INVEST?

Your personal contribution in ESOP is a U.S. dollar amount determined at your discretion, subject to:

- **A minimum of the aggregate subscription price for 2 shares**, and
- **A maximum of 2.5%¹² of your 2023 gross annual compensation** (estimated when you subscribe).

WHEN AND HOW DO I SIGN UP?

Between September 15 and October 4, 2023 (inclusive), you may submit a reservation order to acquire Capgemini shares by indicating your personal contribution (expressed in a number of shares):

- On the following website: <https://esop.capgemini.com/2023>, using the username sent to you by e-mail.
- If you do not have access to the internet, you can use the reservation/subscription form provided, by completing, signing and returning it to the indicated address.

Between November 13 and 15, 2023 (revocation/subscription period)¹³:

- You may cancel your reservation.
- If you did not reserve units between September 15 and October 4, 2023, you may still subscribe, but only for **a reduced amount, limited to 0.25%** of your estimated 2023 gross annual compensation.

HOW DO I PAY FOR MY INVESTMENT?

Your personal investment in Capgemini shares will be paid for through a salary advance (interest-free loan from your employer) and will be repaid by you through payroll deductions. **The payroll deductions will be applied in six (6) substantially equal installments through consecutive after-tax payroll deductions (or additional installments in the event that it is required by local laws) as reimbursement for the salary advance made by your employer** (in an amount of up to \$10,000, with any remainder payable by cashier's check prior to subscription).

If you fail to make full payment for your shares, your employer may take such actions as are necessary to recover the amount you owe, and your subscription request may be automatically cancelled. The first payroll deduction will be taken from your first salary payment in December 2023.

EARLY EXIT EVENTS...

Your investment must be held until December 19, 2028.

However, your investment will automatically be sold before this date if you experience a "separation from service" within the meaning of Section 409A of the U.S. Internal Revenue Code as a result of your:

- Disability (within the meaning of Section 409A of the U.S. Internal Revenue Code);
- Death; or
- Termination of employment with the Capgemini group.

CALCULATION OF ANY GAINS IN THE EVENT OF AN EARLY EXIT EVENT

The protected average increase takes into account the monthly closing share prices (or the reference price if this is higher) (in Euro) recorded prior to the Early Exit Event, with the last reading (or the reference price if this is higher) repeated as many times as necessary to reach a total of 60 readings.

Your gains under the Plan will be converted from Euros into U.S. dollars at the exchange rate in effect on the business day immediately following the reference date for the Early Exit Event. Please see the U.S. Supplement for further information.

TAX IMPLICATIONS...

The tax treatment applicable to your participation in ESOP is described in the U.S. Supplement.

¹¹ A company in which Capgemini holds a majority shareholding and which is a member of the International Group Savings Plan (IGSP).

¹² This amount is limited to 0.25% if you subscribe during the revocation/subscription period.

¹³ In the same way at <https://esop.capgemini.com/2023> (using the username and password sent to you by e-mail).

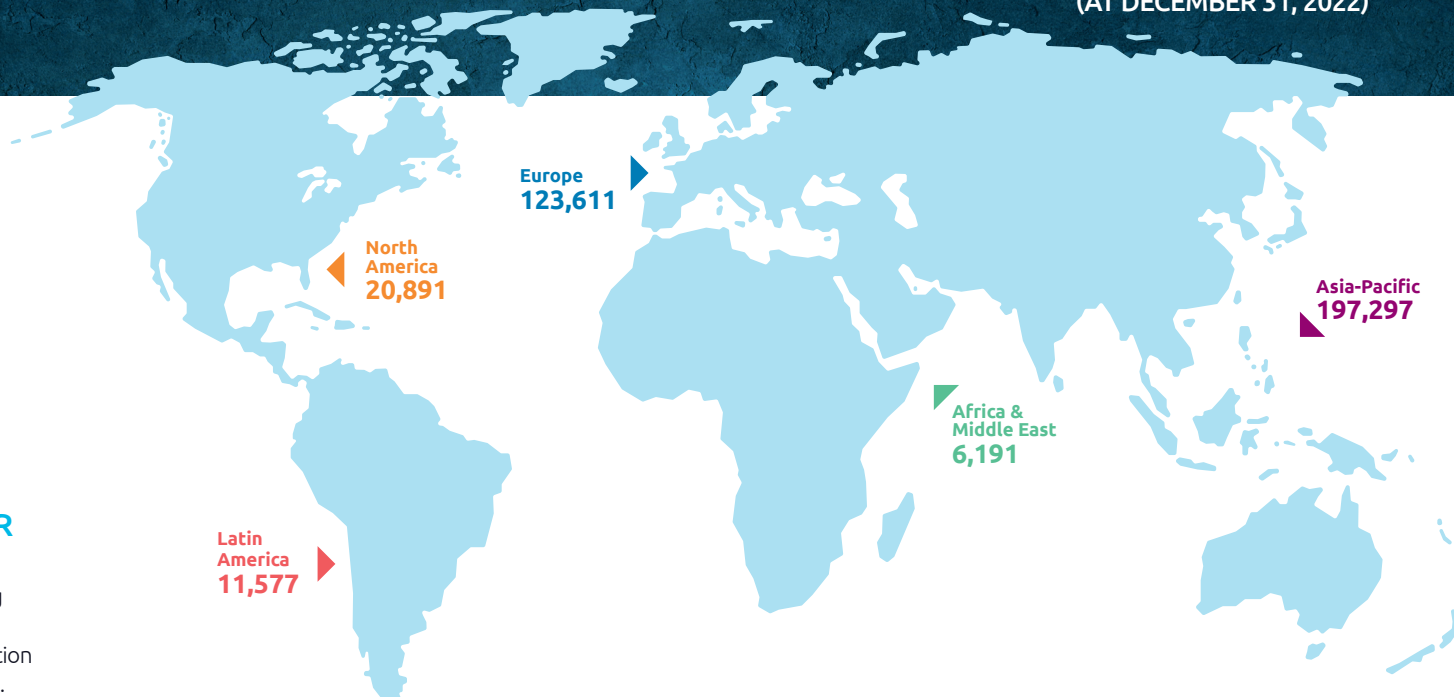

NUMBER OF EMPLOYEES
(AT DECEMBER 31, 2022)

CAPGEMINI GROUP
